### **DETAILED ACTION**

1. This Office Action is in response to application filed on September 24, 1999. Claims 1-43 are presented for examination.

#### ***Election/Restrictions***

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-20, 24-32, and 34-42 drawn to message using queue, classified in class 709, subclass 314.
  - II. Claims 21-23, 33, and 43 drawn to task management, classified in class 709, subclass 100.
3. Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as message using queue, whereas invention II has separate utility such as task management. See MPEP § 806.05(d).
4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Art Unit: 2126

5. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Groups II, restriction for examination purposes as indicated is proper.
